

## THE CONSTRUCTION INDUSTRY AND FINNISH LANGUAGE FOR IMMIGRANTS

Would you like to work in the construction industry? The purpose of this training course is to provide students with basic skills for different jobs in the construction industry and achieve a level of Finnish language that will allow them to work in the construction industry or achieve qualifications in the field.

### Course location

Savo Vocational College  
Pohjolankatu 1, Kuopio and Haapamäentie 1, Toivala

### Study period

17/1 09/06/2023

### Target group

Immigrants who are interested in the construction industry and whose Finnish language skills are not strong enough to find employment or access a degree programme

### Language requirements

A1.3

If you do not have a language certificate, you can take the Savo vocational college language test.

### Purpose of training

The purpose of the training course is to provide students with basic skills for different jobs in the construction industry and to achieve a level of Finnish language that will allow them to work in the construction industry or achieve qualifications in the field.

### Course content

- Orientation to studies
- Rules of Finnish working life (including occupational safety)
- Building materials and use of tools
- Basic construction work
- Licences required in the construction industry
- Throughout the training, students will learn Finnish language skills required for interacting in the construction industry and working life
- Job-seeking skills and applying for jobs
- On-the-job training on a construction site

### Study schedule

Learning time is 7 hours a day between 8 am and 4 pm.

### On-the-job learning

The training course includes on-the-job learning. On-the-job learning takes place at the end of the study period and it lasts about 5 weeks. Work days are 7,5 hours long and the timetable depends on the work schedule at each workplace.

### Employment prospects:

The training will provide students with employment opportunities in the construction industry and the chance to continue studying in the construction field
